PROFESSIONAL PROFILE

Front-End Developer with 2+ years of experience building responsive and scalable web applications using React.js, JavaScript (ES6+), and modern front-end tools. Skilled in translating UI/UX designs into clean code and optimizing performance. Seeking a role where I can contribute to dynamic teams and deliver user-focused solutions.

WORK EXPERIENCE

Front End Developer **Dec 2022 - Till date**

(SITH Infotech)

- Built interactive web applications with React.js, JavaScript (ES6+), and HTML/CSS.
- Developed user interfaces that are responsive and interactive by using React.js to optimize the performance and scalability of the different components.
- Translate wireframes UI/UX to fully functioning web interfaces while being an optimization for performance and accessibility.
- Worked together with the development team on database issues that are about minimal downtime and problem resolution with minimal effort.
- Improved processes through reusing components leveraging the Bootstrap grid system for responsive design.
- Integrated Node.js back-end services to fetch and display data in the front end via APIs.
- Managed version control and project collaboration using Git, ensuring efficient development workflows and continuous integration.
- Actively participated in code reviews, providing constructive feedback for high code quality and maintainability. Stayed updated on industry best practices, trends, and adopted new technologies cutting-edge approach to application development.
- Developed and maintained front-end applications, ensuring that they are of high performance and great user experience.
